PROFESSIONAL SUMMARY

Software developer with hands-on experience building backend APIs, asynchronous processing pipelines, and cloud-integrated systems using Python and FastAPI. Led full-stack Agile delivery of a production-grade healthcare platform as a senior capstone project manager. Brings a security-aware perspective rooted in CompTIA Security+, GRC frameworks, and applied risk assessment work.

EDUCATION

Farmingdale State College
Bachelor of Science in Computer Programming and Information Systems. Magna Cum Laude | President's List: Fall 2024, Spring 2025, Fall 2025. GPA: 3.93/4.0.
Relevant Coursework: Web Database Development, Data Structures & Algorithms, Software Engineering, System Analysis & Design, Programming in SQL, Information Security, Senior Project

Farmingdale, NY
May 2026

Nassau Community College
Associate of Applied Science in Information Technology. Magna Cum Laude. GPA: 3.84/4.0.

Garden City, NY
May 2024

EXPERIENCE

Software Developer
United Medical Monitoring

July 2026 – Present

- Developed backend REST APIs using Python and FastAPI to support robust data handling and third-party integration.
- Implemented asynchronous job processing with Celery and Redis to improve workflow efficiency.
- Designed and optimized databases using SQLAlchemy and Azure SQL to improve data retrieval performance.
- Integrated cloud AI services and third-party APIs into automated workflows to extend operational capabilities.

PROJECTS

OpenMD - Senior Capstone
Project Manager

Spring 2026

- Led end-to-end Agile delivery using Jira, including epics, user stories, acceptance criteria, and sprint planning, to ship a scalable healthcare platform for practices, providers, and facilities.
- Implemented Supabase Row-Level Security (RLS), role-based access control (RBAC), and token-based invite onboarding to protect HIPAA-sensitive healthcare data.
- Facilitated sprint meetings, captured action items, and tracked cross-functional team progress to completion.

Security Risk Assessment Project
Farmingdale State College

Fall 2025

- Conducted an organization-wide cybersecurity risk assessment covering infrastructure, applications, and data layers, identifying and documenting 47 security gaps mapped to NIST CSF and SOC 2 compliance frameworks.
- Built a detailed risk register with severity ratings (High/Medium/Low), likelihood assessments, and prioritized mitigation strategies.
- Applied NIST SP 800-171 requirements and analyzed alignment with CMMC Level 2 compliance standards.

CERTIFICATIONS

- CompTIA Security+ | April 2026
- Career Essentials in Cybersecurity by Microsoft & LinkedIn | February 2026
- Google Cybersecurity Certificate (Professional Certificate) | Coursera | October 2023
- Google Data Analytics Professional Certificate | Coursera | May 2023

SKILLS

Programming & Scripting: Python, JavaScript, Java, SQL, PHP, R, HTML/CSS, Perl

Frameworks & Tools: FastAPI, REST APIs, Next.js, React, SQLAlchemy, Celery, Redis, Supabase, PostgreSQL, Azure SQL, Azure, JIRA

Networking & Systems: TCP/IP, DNS, HTTP/HTTPS, OSI Model, Windows Server, Linux/Unix

Cybersecurity: Vulnerability Assessment & Management, NIST CSF, SOC 2, GRC, Incident Response, Compliance Reporting, Nmap, Wireshark, Burp Suite, Splunk

Languages: English (Fluent), Bengali (Fluent)
